

The World's Largest Scrap Recycling Industry Convention and Tradeshow

The Institute of Scrap Recycling Industries (ISRI), the Voice of the Recycling Industry™, will host its **2014 Convention and Exposition April 6-10** at the Mandalay Bay Convention Center in **Las Vegas**. This annual event has become the largest convention of its kind, bringing together nearly 6,000 scrap recycling professionals, industry experts and manufacturers from all 50 states and more than 40 countries to discuss the latest in the global scrap recycling business.

“The ISRI Convention is the one place, every year, that brings together the industry experts, top equipment manufacturers, world-class speakers and more, all with the goal of bettering the industry,” said ISRI President Robin K. Wiener. “Each year, the Convention provides more and more value and opportunity for recyclers, which is one of the reasons this year’s exhibit hall has grown to four times the size it was just 10 years ago.”

Highlights this year include that a keynote address by **Hillary Rodham Clinton, Former Secretary of State and Former U.S. Senator** from New York, during the Closing General Session and **Apple Co-founder Steve Wozniak** as part of the Distinguished Speaker Series.

ISRI has invited **Mr Venkatesha Murthy, (Venky)** to its “**2014 Convention and Exposition**” as **Honourable Key note speaker** on topic of “**Going Global- Challenges, Issues and Trends**” due to his intensive knowledge and extreme contribution to e-Waste Management and Green Environment.
